

**BR**

The electronic steam boilers of Sidi's new line are available in different sizes to accommodate 1 to 4 irons. The horizontal design of the boiler allows an easy and fast maintenance. An electronic water level probe ensures proper water level and long life to the heating elements. On request we can supply models with additional iron connections - 9 lts. boiler and increased power - special version for "all steam" irons.

**BR 1**

5 lt boiler- 3,3 kW - 1 iron.

**BR 2**

5 lt boiler- 3,3 Kw - 2 irons.

**BR 3**

5 lt boiler- 6 kW - 3 irons.

**BR 4**

9 lt boiler- 8 kW - 4 irons.

**Available extras upon request:**

- motor;
- pump and water reservoir;
- steam spotting gun;
- casters.

**TECHNICAL DATA****BR 1 - 2 - 3 - 4**

<b>REQUIRED POWER</b>	400V/3/50 Hz* • 220V/3/60 Hz*
<b>WATER FEEDING</b>	ø int. 13 mm • 0,5 in
<b>BOILER DRAIN</b>	1/2"
<b>WORKING PRESSURE</b>	2,8 bar • 40 psi
<b>IRON HEATING ELEMENTS</b>	0,8 kW
<b>PUMP MOTOR</b>	0,3 kW
<b>ENCUMBRANCE</b>	580 x 430 mm • 23 x 17 in
<b>NET WEIGHT</b>	50 kg • 110 Lbs
<b>WEIGHT WITH PACKING</b>	78 kg • 172 Lbs
<b>PACKING DIMENSIONS</b>	680 x 500 x 1000 mm • 27 x 20 x 39,5 in
<b>VOLUME</b>	0,34 m3 • 12 m3

\*Other voltages by request.

For manufacturing necessities the above-mentioned specifications are not binding.

# IRONS AND OPTIONS

From the Sidi experience comes an innovative, manageable and revolutionary iron. STAR LUXE is an electric steam iron with an external micro and a universal handle, that's perfectly ergonomic. The tapered shape of the sole guarantees flawless ironing even on hard-to-reach areas (pockets, cuffs, seams, etc.).

Available also in version STAR , particularly suitable for left-handed operators, equipped with patented Triple-Touch system. This allows to operate the micro-switch from every side: left, right and center, making vertical use of the iron very easy. It's unique handle allows customized use of the iron, open or closed.

Tapered sole in die-cast aluminum, with internal heating element and a labyrinth with 31 chambers to obtain dry steam even at low temperature 3-row hole design to allow excellent steam distribution on the fabric, and an eyelet on the end for seam-opening. New thermostat that guarantees optimal temperature (125-180°C).

**+** Available extras upon request:

- hand protection (against rising steam);
- teflon shoe;
- hook for iron suspension.

**+** Technical data:

- electric power 230/1/50 Hz\*;
- iron heating element 0.8 KW;
- weight 1.8 kg.

\*Other voltages by request.

In addition to the standard steam iron, mod. Star Luxe, 1,8 kg, W 800, the range of Sidi irons also includes the following versions:

## ELECTRONIC 170

With electronic control and nickel-plated sole, 1,6 kg, W 1000.

## ALL STEAM

Iron, without heating element, without thermostat, steam heated, 1,3 kg.

## MINI

Basic, inexpensive model, 1,9 kg, W 800.

## MINI PROFESSIONAL

With steam control on the handle and hand protection..

## SEAMBUSTER IRON

Narrow base with special alloy iron sole, thermo fuse protected armored heating element, 1,3 kg, W 600.

## GFV

Steam iron assembly including iron, solenoid valve, steam separator, control box, hose , cable , plug and socket.

Instead of the iron, GFV can be supplied with **LIÚ** steam brush or **STEAM GUN**.
